## Email Server Settings

By [Sunburnt Technology](#), 14 March 2012

We have step by step guides to walk you through setting up your email on several different devices:

- [How To Setup Your Email in Microsoft Outlook.](#)
- [How To Setup Your Email On Your iPhone](#)

For other email programs you just need to use the following settings.

### Incoming Mail (IMAP)

Server: mail.sunburnt.com.au  
Username: <your full email address>  
Password: <your email password>  
Port: 143  
SSL/Encryption: none

### Outgoing Mail (SMTP)

Server: mail.sunburnt.com.au  
Username: <your full email address>  
Password: <your email password>  
Port: 2525  
SSL/Encryption: none
