Faster Checkout Means More Sales

By [Sunburnt Technology](#), 25 April 2014

It is well established that the easier you make it for your customers to order online the more sales you'll make. That's why we've streamlined the checkout process of our Online Store software. The checkout page is now a single form which can be completed easily and rapidly. That means fewer lost customers and more sales.

Below is a screenshot of the new checkout page. If you have any problems with the update, please let us know.
