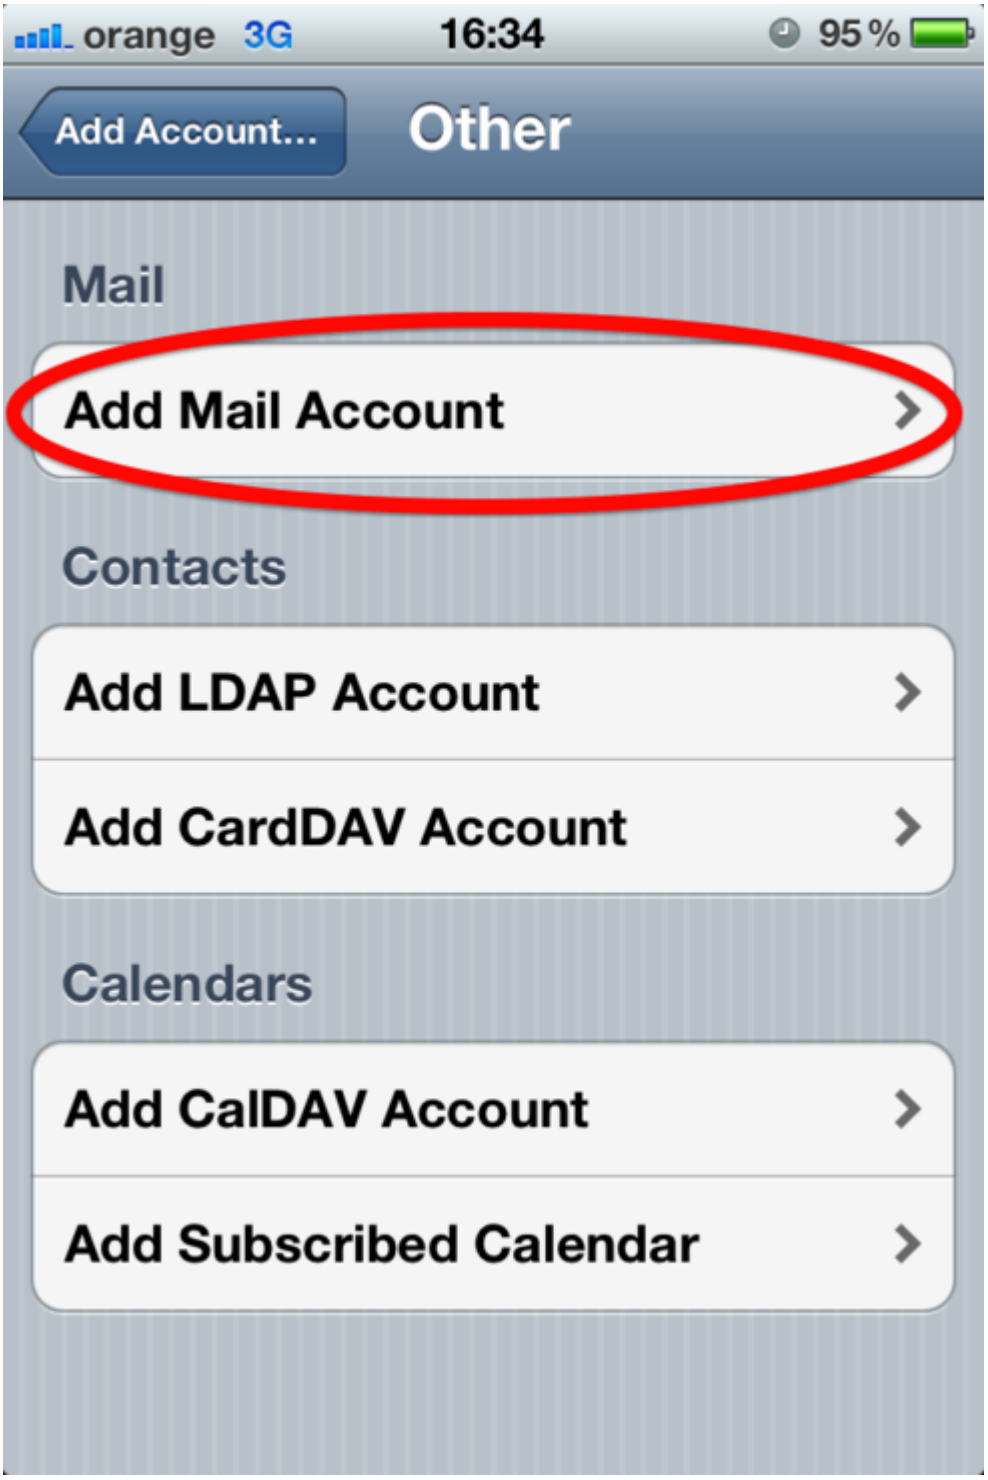
How To Setup Your Email On Your iPhone

By Sunburnt Technology, 13 April 2014

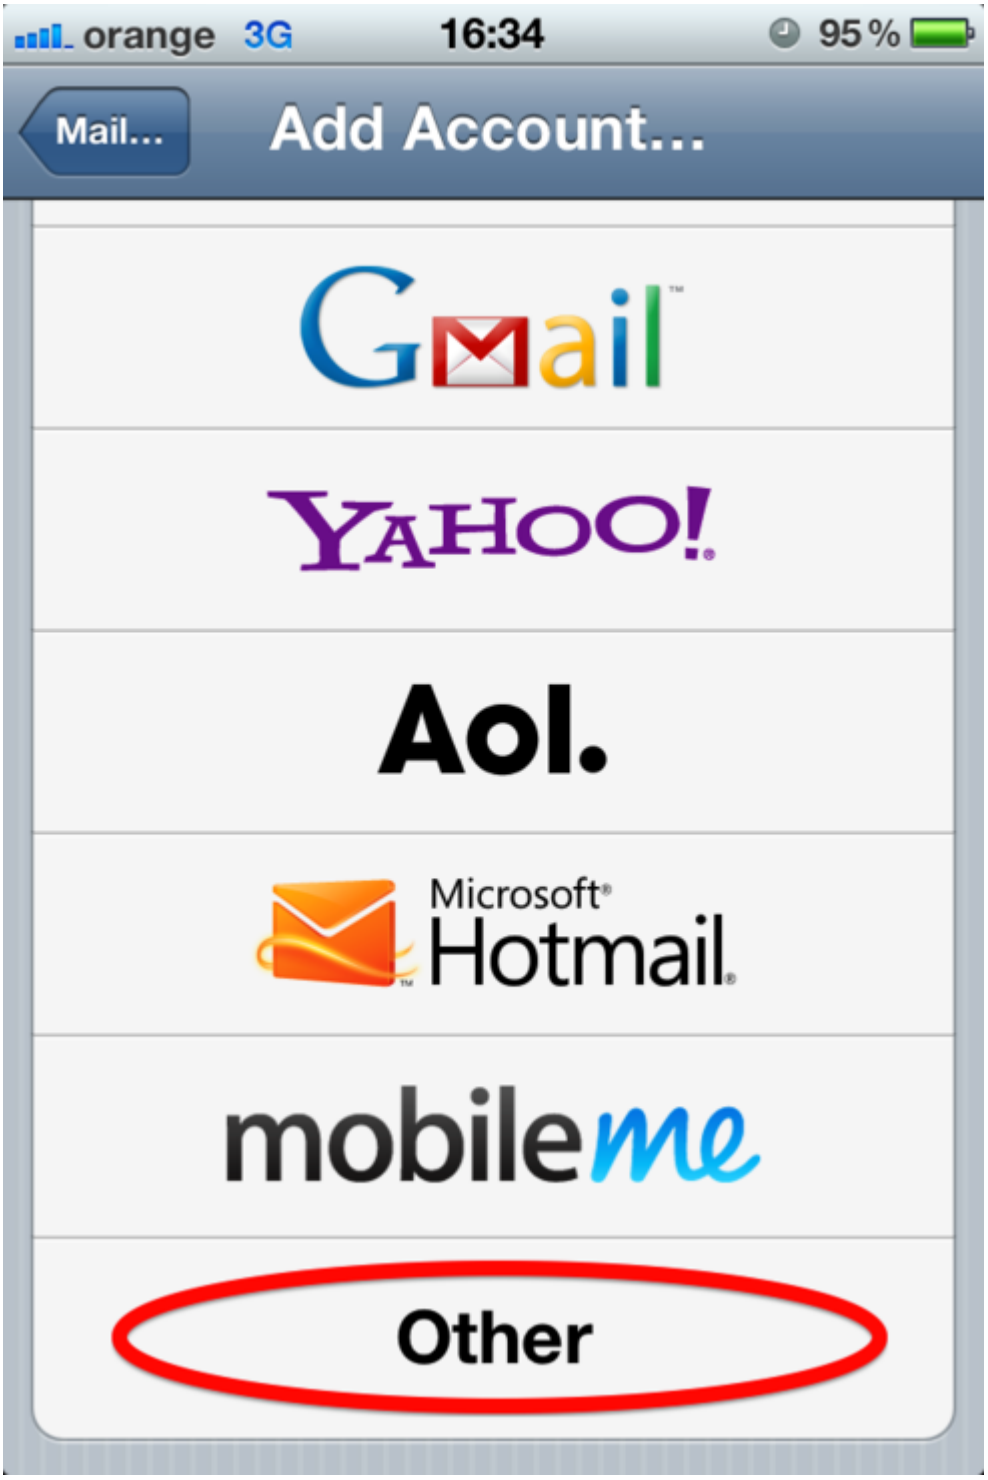
1. Tap on Settings on your home screen

2. Go to "Mail, Contacts, Calendars"

3. Tap on "Add mail account"

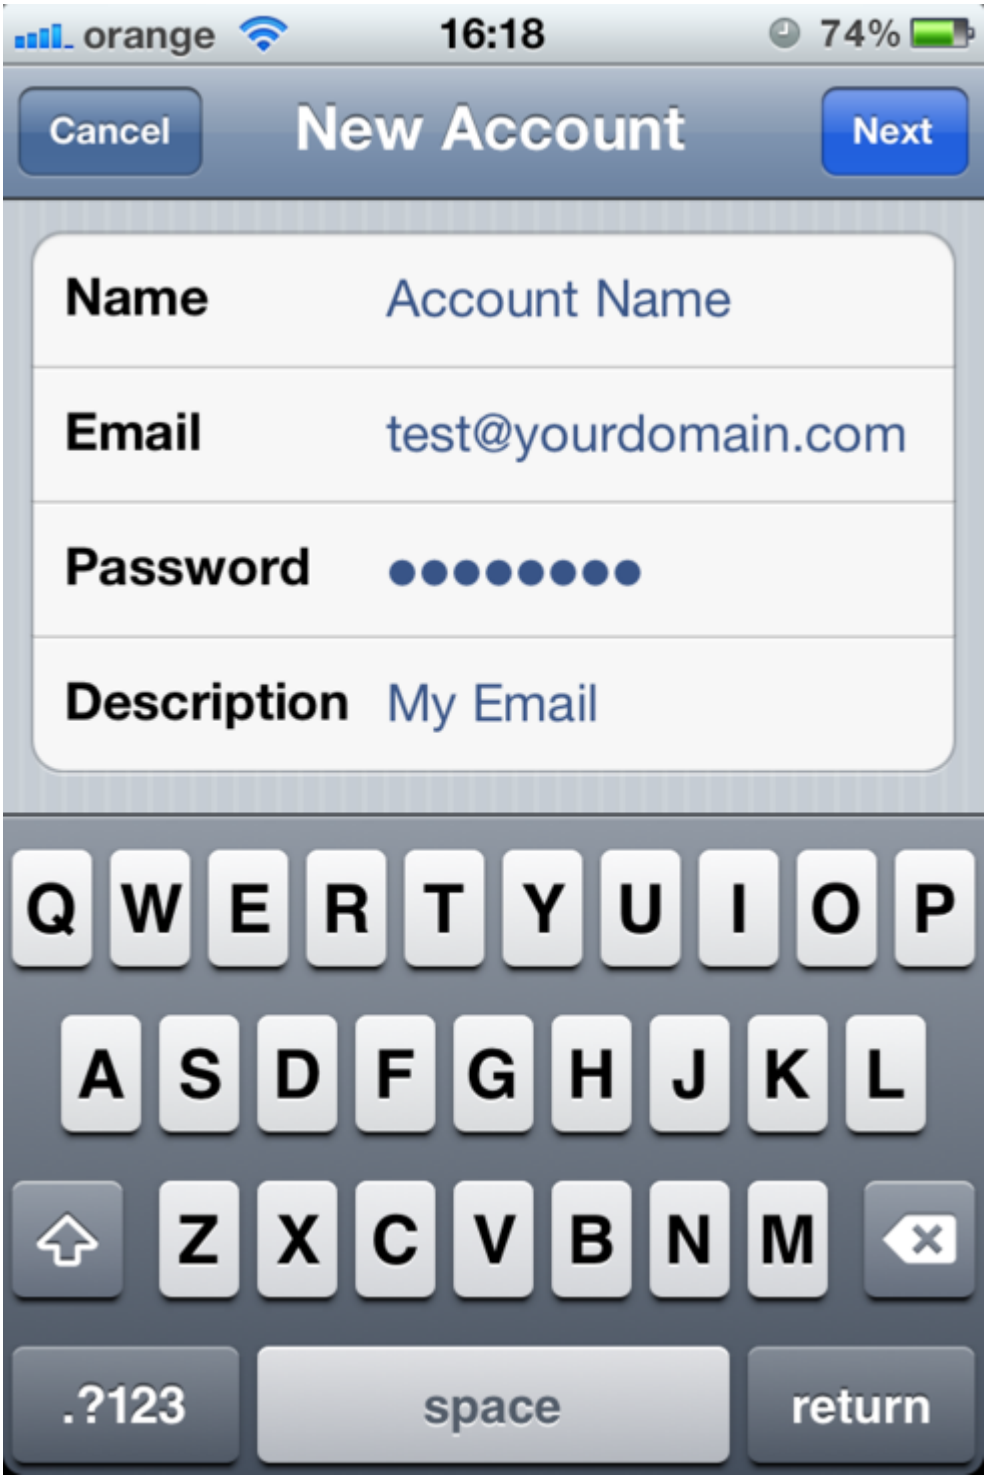


4. Select "Other" from the email providers list



5. Fill out the required information

Name:	Name your account however you want
Email:	Your full email address
Password:	The password you chose for your email
Description:	You can type in whatever you want



6. Tap "Next"

7. Make sure the IMAP account type is selected at the top. Use the same settings for both "Incoming Mail S and "Outgoing Mail Server".

Host name: **mail.getsunburnt.com**

Username: **your email address**

Password: your chosen password
