## [New Feature] Attach Multiple Products To One Page

By [Sunburnt Internet Marketing](#), 17 July 2014

Today we released an update which allows you to attach multiple products to your product pages. This is useful if you have a number of related products but you don't want to create a separate page for each product. Some examples could be:

- products of different sizes
- boxes of different amounts
- any other variation of your products

When you have multiple products attached to a page, you will see separate "Buy Now" and "Add to Cart" buttons for each product:

**0** **Dream Catcher Heart**

**Share** Dream Catcher Large Heart **\$9.95**  [Buy Now](#) [Add to Cart](#)

Dream Catcher Small Heart **\$5.95**  [Buy Now](#) [Add to Cart](#)

Dream catchers are one of the most fascinating traditions of Native Americans. The traditional dream catcher was intended to protect the sleeping individual from negative dreams, while letting positive dreams through. The positive dreams would slip through the hole in the center of the dream catcher, and glide down the feathers to the sleeping person below. The negative dreams would get caught up in the web, and expire when the first rays of the sun struck them.

The dream catcher has been a part of Native American culture for generations. One element of Native American dream catcher relates to the tradition of the hoop. Some Native Americans of North America held the hoop in the highest esteem, because it symbolized strength and unity.

Please note here is NO LONGER a **price box** on the page editor. Instead you need to use the "**edit**" links on th attached products. You'll see these when you're logged in:
