[New Feature] Page Analytics

By [Sunburnt Internet Marketing](#), 6 January 2016

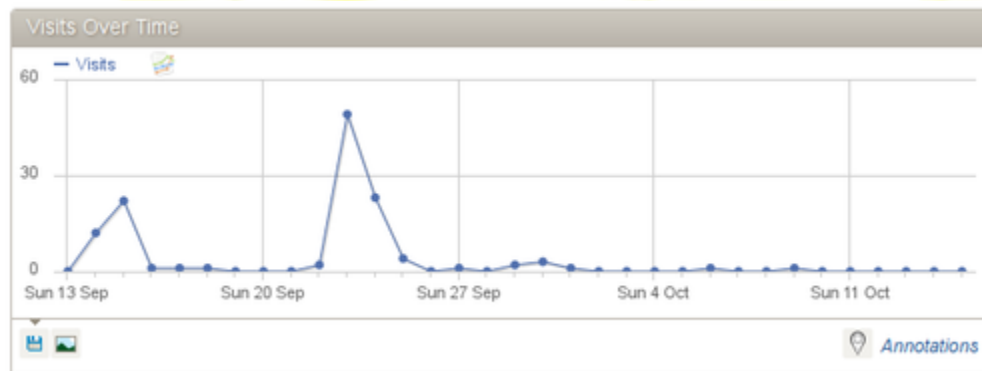

We've just released an update to our software that makes it easier for you to get more meaningful visitor analytics. When you log in, you'll now notice a "**Page Analytics**" link at the top of each page.

Java With No Design Patterns

By [Roger Keays](#), 13 September 2015

This link retrieves all the data from our analytics server and **filters it all for that page**. You can see the visits, referrers, search terms and any other metrics for that single page since it was published. This is very useful to determine how effectively each page on your website is performing. You can also use it to check the reach of new articles that you publish.
