New Look Webstats

By [Roger Keays](#), 5 July 2007

We've made some changes to our web statistics reports to make them more accurate, less confusing, and generally more useful. Our new report now fits onto four pages and includes more information about:

- your search terms
- your referrers
- your most popular pages
- your visitors' home countries
- error pages

Particularly, the countries statistics is now much more accurate. We've also removed much of the less useful such as daily 'hits', and lists of IP addresses / host names.

[View a sample of the new webstats report.](#)

The new reports will arrive, as usual, at the beginning of every new month starting next month. You can of c log into our website to view your statistics at any time, using the following steps.

1. Visit <https://www.sunburnt.com.au/login> and enter your username and password.
2. Select 'My Domains' from the navigator on the left.
3. Click on the domain whose webstats you would like to view.
4. Select 'Webstats' from the toolbar.
5. Choose a subdomain to examine.

Feel free to contact us if you have any questions.
