## Sunburnt SEO Turns 10

22 February 2013

At Sunburnt SEO we are happy to be **celebrating our 10th birthday** this month and want to take this opportunity to thank you for your business.

### Thank you thank you thank you!

Sunburnt started as a University side-project and has grown steadily into the complete **Internet Marketing** solution you use today, complete with fully featured Website Builder, Email Marketing, Online Store, Business Email and Domain Name Management applications.

Our software continues to evolve and in the last 12 months we've reached some important milestones to bring you a better service and more powerful features. Just some of these are:

- Improving our user interface with the new [Tabbed Masthead Menu](#) designed to make navigating your website faster and simpler.
- Implementing a [brand new Design Editor](#) to give you more control over your website design with less intervention from us.
- Organising [over 50 help topics](#) in our new **Help Center** and integrated into our product so the help you need is only a click away.
- Releasing the [Sunburnt SEO Toolbar For Chrome](#) to give you insight into your and your competitors' SEO performance as you browse the web.
- Adding over **850 new individual unit tests** to ensure our software is correct. Always.
- Switching our servers to **98% renewable energy** to help keep the planet clean for your children and grandchildren and their children and grand-children.

We still have big plans for our applications and this year we'll be working hard on a new range of SEO Tools including better analytics, competitor tracking, rank checking, link finder and keyword discovery tools and a lot more.

### Help us grow!

Our entire budget goes into developing better Internet Marketing tools for you. The bigger we grow, the better our software becomes and the better tools you will have to help you grow your own business. It's like **win-win-win**.

So if you know of anyone who could boost their business online, send them along to [GetSunburnt.com](#) to sign up for a free account and see what we have on offer.

Best wishes for 2013!

Roger
