New Analytics Package

By [Sunburnt Technology](#), 23 June 2013

After months of hard work we are excited to announce a **major upgrade of our web analytics software** that will really change the way you think about your website.

The new analytics system lets you slice and dice your visitor data in an enormous number of ways, allowing you to answer just about any question. For example:

- How many people **visit your site over time**?

- Who is visiting your website **right now**?

Visitor Log

Date	Visitors	Referrer URL	Actions
Fri 21 Jun - 09:29:32 IP: 66.158.134.58 Provider: B2b2g	 Plugins: 	Google Keywords: "Keyword not defined" # 2	1 Action 1. JSF c:forEach vs ui:repeat http://www.ninhavenue.com.au/jsf-c-foreach-vs-ui-repeat

🔍

10 ▼

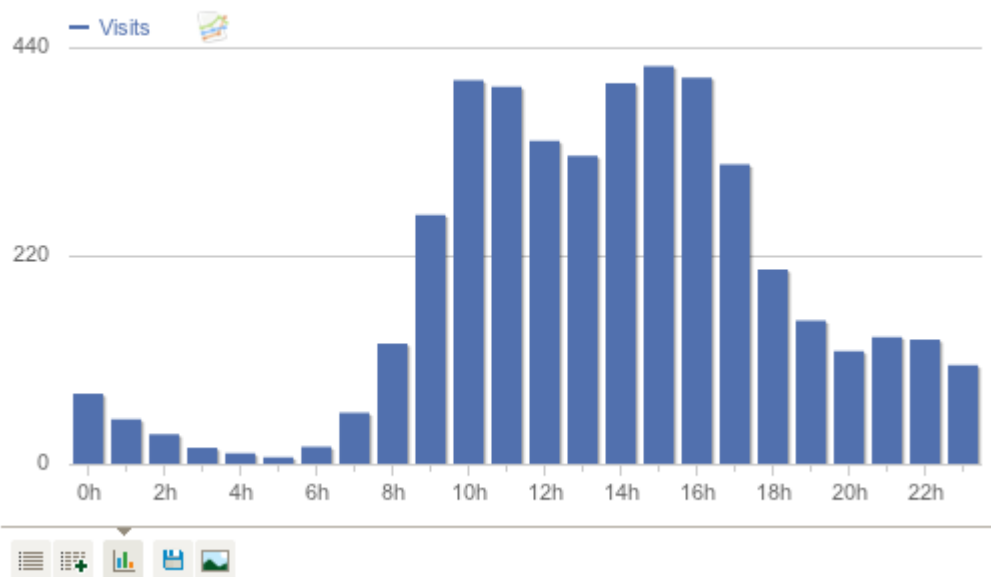

- What **day of the week** do your visitors most frequently visit on?

Visits by Day of Week

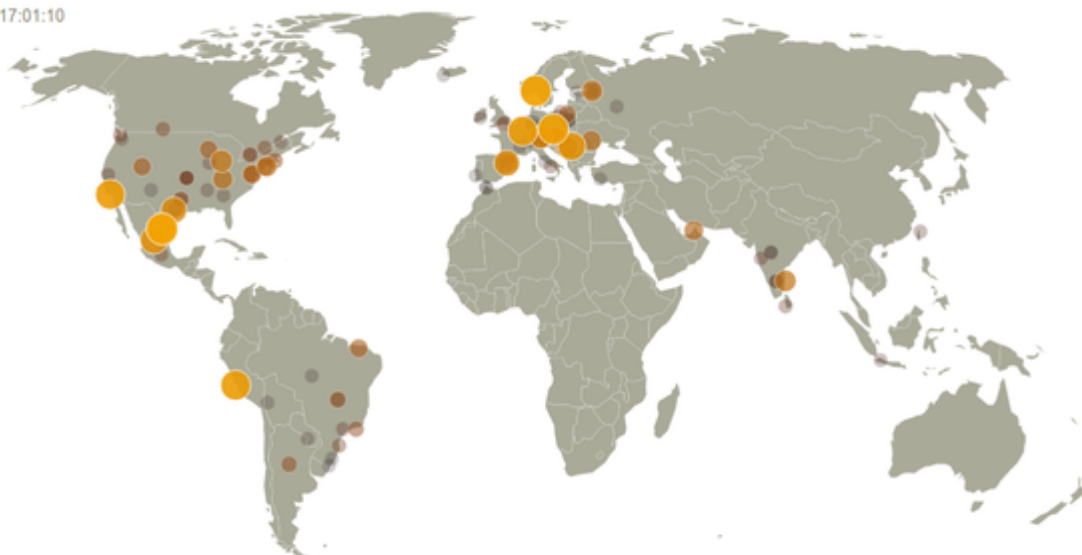

- What **time of day** do your visitors most frequently visit?

Visits per local time

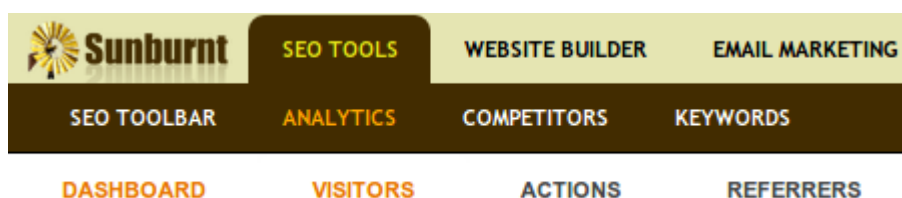

- What **countries and cities** do your visitors live in?

17:01:10

- How many visitors **return** to your website?
- Which pages are **shared** most frequently?
- What links in your menu, sidebar and footer **do people click most**?
- What page gets the highest number of newsletter **sign-ups**?
- Are you visitors using **desktop or mobile** devices?
- How many people **abandoned their shopping cart**?
- and much more...

You'll find the new analytics data in the same place you find the old webstats - just under the SEO menu, and also get pdf reports every month just like before (only better).

We hope you enjoy this new package which we have worked hard on integrating.

Stay tuned for more great features coming soon!
